SJ-20T, 20-TON SCREW JACK

441320

JET® SJ Series Screw Jack is available in five capacities ranging from 5 to 25 Tons that hold the load without creeping. The cast bell shaped housing provides stability while the Jack design requires less effort to raise the load increasing productivity

FEATURES

- Industrial design eliminates creeping when holding heavy loads
- Heavy-duty cast bell shaped base provides a stable foundation in multiple lifting environments
- Corrugated pivoting head, contours to the load providing maximum surface contact
- Improved design requires less effort to lift a maximum capacity load
- Turning bar not included (available seperately)
- Complies with ANSI/ASME B30.1 Standards
