

Husqvarna MS 360

The MS 360 saw offers precision like no other and has an exceptional cutting depth up to 5" deep for a standard 14" blade. The sturdy and rigid design makes it suitable for large jobs cutting block, brick or pavers. The MS 360 rotates for 22.5 degree and 45 degree bevel cuts and switches easily between plunge and miter cutting which makes it fast and versatile on the job site. The patented water containment system facilitates clean work area.

Ergonomic and low vibrations

Integrated telescope carry handles and light weight facilitates easy movement. Plunge handle ensures low vibrations for the operator.

Clean work area

The patented water containment system enables to adjust and optimize the use of water while cutting. The double water spray splash guard reduces the need for cleaning.

Easy to transport

The optional adjustable stand offers quick and easy set-up and disassemble.

High performance

Rotates 22.5 degree and 45 degree bevel cuts and can easily switch between plunge and mitre cutting which makes it fast and versatile on the job site.

FEATURES

- Easy to transport
 - Clean work area
- Ergonomic and low vibrations
 - High performance

Technical Specifications	
MOTOR	
Frequency	60 Hz
Voltage	100–115 V
Rated input power	1.1 kW
CUTTING EQUIPMENT	
Blade diameter, max	355 mm
Cutting depth, max	127 mm
Max cutting length	450 mm
DIMENSIONS	
Product size height	700 mm
Product size length	1010 mm
Weight	58.2 kg
PACKAGING	
Packaging length	1240 mm
Packaging width	730 mm
Packaging height	850 mm
Packaging volume	960 dm ³
