STUMPCUTTER

The Professionals Choice

SP2000 STUMPCUTTER

The SP2000 provides impressive cutting power and the ability to operate in tight working conditions. The unit combines the convenience of a self-propelled transmission with a 27-horsepower engine in an extremely narrow package width.

The SP2000 is easy to use and provides operators powerful cutting ability. The self-propelled transmission allows for both quick and powerful transport to the work area. The transmission provides infinitely variable hydrostatic speed control in both forward and reverse. The model SP2000 provides an excellent solution for hard to get to stumps.

1/2-inch Thick Cutter Wheel, 19-inch diameter maximizes efficiency & provides ultimate cutting power.

Carlton Razor Cutting System

Razor Cutting System provides large smooth cuts while reducing chip spread with increased tool life.

WALK-BEHIND

- **Powerful**, field proven Kohler 27-HP V-Twin Engine.
- **Height Adjustable Control Handle** along with finger tip control help to maximize operator efficiency.
- **Limited Slip Drive System** senses when you need to turn. Does not sacrifice climbing power.
- **Carlton's Razor Cutting System** is simply amazing. The low profile holder design coupled with the large faced carbide teeth provide a high cut to friction ratio – this translates into highly efficient large cuts with minimal chip scatter. The Razor teeth utilize a thick carbide face which resists shattering and an extra hard fine grain carbide which resists wear. This is the most efficient system on the market – minimizing both cutting and cleanup time.

Height Adjustable Control Handle along with finger tip control help to maximize operator efficiency.

Hydrostatic Transmission allows infinitely variable ground speed control.

SP2000 STUMPCUTTER

The SP2000 is compact and portable, delivering power to tight residential job sites.

The SP2000 is just one stump cutter in the full line of high quality professional tree equipment Carlton manufactures. Carlton has been manufacturing stump cutting equipment for over 50 years and our commitment to quality can be found in every piece of equipment we manufacture. Plus, Carlton's staff of highly trained and experienced professionals stands behind every piece of Carlton equipment and is ready with answers to your questions. From parts and service to technical support, Carlton is dedicated to providing our customers with the best experience.

SPECIFICATIONS

Engine options	27 HP Kohler Command
Cutter depth below ground	24"
Cutter height above ground	27"
Number of teeth on cutter wheel	16
Cutter wheel diameter with teeth	19"
Cutter wheel thickness	1/2" Blanchard ground
Cutter wheel bearings	1 7/16" Tapered Roller
Fuel tank capacity	5 gallons
Tire size	6-12
Machine width	29"
Machine height	46"
Machine length	93"
Total weight	695 lbs.
Paint	Dupont Imron with Epoxy Primer

*Due to commitment to constant improvement specifications are subject to change. Please consult factory for latest specifications.
